

Study Agreement

Agreement for Participation in Educational Study

We are conducting a study on education and would like to use your submissions as part of our research. Please read the following agreement carefully.

Purpose of the Study

The purpose of this study is to improve educational methods and understand student learning processes. Your submissions will help us gather valuable insights.

Anonymity

All submission results used for the study will be completely anonymous. No personal information will be collected or associated with your submissions.

Voluntary Participation

Participation in this study is entirely voluntary. You also have the right to opt-out of this study at any time by notifying us in writing. Your decision (participation, non participation or opt-out) will not affect your academic standing or grades in any way. If you opt-out, we will not use your submissions in future research or publications, although we cannot remove them from any existing public records where they may have already been published anonymously.

Use of Code-completion tools

By agreeing to participate, you also agree to refrain from using code-completion AI tools like Copilot when doing submission exercises, with the understanding that simply attempting the exercises is sufficient for submission. This practice is recommended, regardless of participation in the study, as the use of such tools will also be prohibited during the final exam.

Agreement

By checking the appropriate box and signing below, you indicate that you have read and understood the information provided above regarding the use of your submissions in this study.

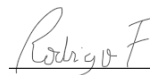

☒ I AGREE to allow my submissions to be used in this study.

☐ I DO NOT AGREE to allow my submissions to be used in this study.
